# BOY FOUND ALONE ON

## MYSTERIOUS ISLAND!

HMS  
Beagle

By Bella Harlow.

(24th September 1969)

A young nine year old boy named Jemmy Button was found

(28th of August 1969.) Jemmy was found discovered on

Tierra del Fuego, near Argentina. After three hours of searching the captain and his crew found the boy wandering alone.

Captain FitzRoy and his seven delightful crew members on HMS Beagle traveled across

the Atlantic for at least two weeks. Captain FitzRoy explained, "It was a ruff voyage but we made it." Since the crew arrived on a sail ~~boat~~ <sup>boat</sup> it was hard because the sail made the voyage a horrible one. One ~~one~~ of the crew member added, "We had no idea where we were going but we wanted to find someone so we could help them." We also wanted to civilise a tribe member." Jemmy would not stop to comment.

The Captain will teach Jemmy everything he knows about England and much more. When Jemmy is civilise he will be refered to his family. Hopefully he will teach his tribe a bit that he learnt.
