We are learning to develop our ideas fully and clearly for the reader

This guide will help you learn safety information about key times in your life. Although you might not ^{want to} follow the rules and they might stop you from doing something you want, safety is vital and always comes first. That's not saying ^{to say} following the rules ^{is not} a ^{to say} gun.

In a fire.

If you are in a fire, feel the door with the back of your hand to be able to tell if there is a fire. If you don't and you open the door, be prepared as smoke might come out and if it does, shut the door and if smoke does come out crouch ~~down~~ down. For your safety, get out side straight and ask your neighbours if you can use their ~~phone~~ phone to call the fire brigade.

Railway safety

If you are at a train station, there are a couple of things you can not do: like gravity on the trains, skateboard or have your legs dangling off the edge. If you gravity on the trains then you will be put in ~~of~~ the gravity lounge. ^{do not} ~~Do not~~ have your legs dangling off ~~of~~ the edge ~~is~~ because if you were to fall and touch the track you have 750 volts running into you.

Stronger danger

If you are walking home and you come across a stranger, don't do not talk to them or trust them. If they follow you, go into a shop or some place busy so you can tell them about the incident. If you are in a group and ~~if someone~~ they offer a help to a stranger, pull them back and remind them ~~that~~ that they do not know who they are.

St Johns Ambulance

If you ~~are~~ can see someone on the floor, look around ~~at~~ for any clues. There are some steps you need to follow. Known as DRAB. D = danger R = response A = airways B = breath. There are two phone numbers you can ring.

EBT Think about how you could use a range of punctuation to offer further clarity for the reader.
