

If I had a magic pencil,

I would draw a plane,  
big and relaxing,  
To go anywhere I want with my family.

I would give homeless people money,  
to buy a house and food,  
and maybe a car.

I would draw dogs all sizes  
I would give them a home food  
and lots of toys

I would be able to fastforward time  
And reverse time  
So I can go to any time of the year
