

if I had a magic
Pencil...

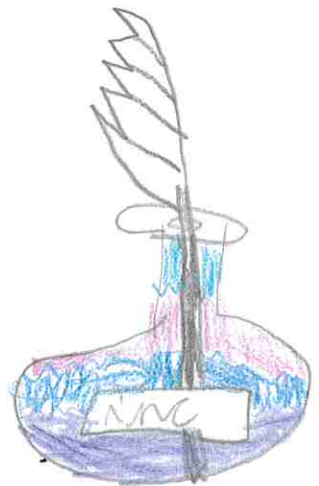

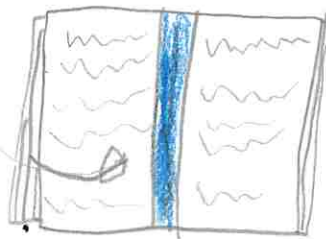

I would make my grand problems disappear so she could live a happy life forever.

I would draw a pool of fishes, one bred aquatic life existed any kind of fishes.

I would bring every thing to life from hospital, and go to hospital school of with cost and institute

I would go to draw a friend who can prove my mum and dad and friends.

I would be a model and give to SPOs, go in a blackroom and take pictures to show similes.
