

Tuesday 8th October

Lo: We are learning to use conjunction in our writing.

On Monday 7th October, a mysterious box came to 3B! Suddenly we were happily interrupted by Mrs Holloway. When Miss Holloway she was holding a delicate box: Who was it from? Mrs Holloway gave Miss Brown the the delicate box, she was confused. We thought it was from a Museum of a scientist. Miss Brown looked inside the interesting box and decided to show us.

We saw a heavy stick, forty FUFF, a catall teeth in a big rock, a pointy rock, a fish inside a rock and a shell that we thought was a real fish that we thought it was real with a small fish in the hole. It was that a famous scientist has found this in Snowdonia Land near a volcano where he or she found it. Most of us thought it was a scientist that picked up all of the things that we got in the box.
