

Friday 8th October 2019 LO: We are learning to use conjunctions in our writing.

One Monday morning just before lunch when we was discussing an very interesting and important English lesson. Mrs Holloway came and interrupted our English lesson. 3B just quickly finished their English and then had a look at the mysterious box. Mrs Holloway said she had checked every other class in the school but us 3B. 3B found lots of weird things in the box. They found a grinding stone and a big sharp and pointy wooden stick made of dead wood and it had dried blood on it. We 3B thought that it came from a museum. 3B also thought that it was from Stone Age because it had things that people in the Stone Age would use. Why was this box delivered to Saxon primary school?
