

Monday 14th ⊗ October 2019

L.O. We are learning to use headings and sub headings to organise our writing.

Fossils

Mary Anning

Mary Anning was the most famous fossil hunter ever. She was ~~the most~~ really good at finding fossils. Mary and her brother were very poor so she went down to the beach and collected fossils. When Mary Anning was fossil hunting she almost died. She lived in a poor situation. Her dog died.

Ammonites

~~This~~ Ammonites were creatures with shells that swam in the oceans millions of years ago. Ammonites got pressed against the floor and got pressed into rock and turned into fossils. Mary they lived with the dinosaurs but maybe before that or after.

Real really ~~really~~ ~~really~~ ~~really~~
final ~~final~~
finally ~~finally~~ ~~finally~~
