Lo: We are learning to use conjunctions in our writing.

Are you tired of your old rock trousers? Why not buy a new fabulous pair of trousers. Before you looked at these trousers, weren't you missing something? But when you try these on, your life will change. They are cozy, warm <sup>and</sup> thick you could also use them as a cushion. ~~you~~ You should buy them because they are as warm as a fire. They come in lots of different colours, whilst you have stone trousers on you don't know what you're missing. When you put them on you will live, will change.
