To: We are learning to write a letter in first person as Maia to the twins.

Dear twins

Mam Dear twins

I am looking forward to be bringing myself to your part of the world. It will be such a good experience for me. When my parents died in a train collision in Egypt, I thought I would have known hope but you switched it around. There will be deadly and exotic animals which I have never been seen before. I stay at a boarding school, it's not bad, it's one of the best in London. I have no friends just teacher which I'll miss a lot.

I like sailing and reading horsefully you do to so we could do it together. Also I like going on adventures and going to libraries they make me happy. One of my favourite is going on boat, I like going on one every Sunday.

I am excited to see all the animals and happy and joyful, twins I could go on about how happy I am. I'm also sad that I am going to leave my teacher and people from the school even though they are not my friends.

I am looking forward to listening to the birds sing. Seeing lots of cool animals. Seeing clear animals.

→ I'm I am

~~Maia~~ so excited.

Sincerely Maia
