We are learning to create cohesion.

Alan Turing

Alan Mathison Turing was born on the 23rd June 1912 ~~at~~ (and the younger brother of John Turing) and son of Julius Mathison and Ethel Sara Turing. Unfortunately he committed suicide on the 7th ~~th~~ June 1954. He lived for 41 years and 343 days. Furthermore, he lived for 15314 days in total. ~~At~~ AS a young child, he was quite wealthy. At 13, he went to a boarding school. The school was called Sherborne. He studied maths in all schools.

13.11.19

Early Life

When Turing was young, he went to a top private school. While he was at school, his best friend died (Christopher Morcom) because of a ~~his~~ disease called tuberculosis. His grief inspired him to discover. Slowly as he got older he went to university of ~~cambridge~~ Cambridge. Before that he went to King's College. His college since 1931. ~~He~~ His parents were proud.

Later Life

Alan Turing in 1939 he went to join the Government Code and Cypher school. He helped with the Morse code. He was the one who hacked into Enigma. He was the one who told the fighters where to go. Furthermore, he directed the fighter jets where to go. However, he could not tell the fighters where to go when they had the ships. If he did the Germans will know that he hacked into Enigma. He was

the one who helped England.

SP Historians believed that the war would ~~of~~ continue for 2-4 more years. ~~In~~ 1942 The Polish Government helped Turing where not to bomb. He ~~also~~ also directed the soldiers to ~~see~~ everything and everything.
