

Wednesday 4th December

LO: We are learning to use prepositions for time, place and cause.

Making fire

In ~~stone~~ the Stone Age I think this is how they make a beautiful fire. First they smash flint stones together as hard as a huge airplane smashing it with all his guts. Or they would turn a wooden drill into the ground. Fire is used for cooking, to keep good warm and sometimes to scare off goroshes, mammoth and wild ~~and~~ animals so they galap back into the wild.

Making tools

NOW I will show you how to make tools. First you achieve the challenge to find some amazing flint stone. Next you have to chip tiny bits ~~are~~ off and use them and sharpen it, carefully. After a while they are made into seriously sparkling, cold, & shimmering amazing.
