We are learning to use a range of punctuation

### Computers are the best

Computers are the best, because it's same you can do a lot of work in this. There are some points why this is being written. Well it is long because there are three uses of saying this. This is point one...

When you have to go to school you need a school uniform to go rather you at home on a computer you can wear anything! which this point is saying that your time is not wasted on wearing school things. Next point... No to point two...

When you are doing work on the computer you can make fun. Instead of terrible hours of horrible working. If you make it fun you will be do a lot more than expect. When you do fun it can make you do all sort of things. This is why computers are the best. Now onto point three...

When you are at home you can work as long as you like for exple one hour. Computers can help for the work. Computers can replace school because it dose a lot more than school teaches you.

### Why are computers important?

Computers are important for many reasons, like one they can see as quick as a blink of an eye with out going of the house. When you write, you need to do letter formation and a computer can do that for you. You can play games on the computer but not at school bring work time; when you write on a computer it is in peacefully and there is no nobody to annoy you to be disagee unlike school. When you are at home on your computer when you are hungry you can go and eat what you want but at school you have to wait. The computer will never be out by the user.

Over all, this has proven that computers are the best because it save a lot like in the three points. It replaces school a lot unless you have to wake up early, get dress a school uniform and work for six hours. So this why computers are the best and they search up more than you learn. So you must started to be on computers instead of school. If you do not you should because you can sit at a comfy agency place instead of hard chairs and tables. When you are at home on a sofa you can be in any angle you want to be in so you should have PC. So you must have a computer. This is advice to stay on computer instead of school. So say away from school for ever.

Stytle  
Strike

★ stay

~~not~~ forever! when you are on a  
longer or high bikes ~~may~~ ~~not~~ ~~be~~ ~~as~~ ~~good~~ ~~as~~  
much as school.
