L.O: we're learning to name all the spelling

## Passover

The festival of Passover is when Jews were freed from slavery from Egypt. The prophet who freed them was Moses. In my writing, I'll explain why Passover is so special to the Jewish faith.

## The story of Passover

It all began in Egypt, when the Israelites were slaves in Egypt. Moses told the pharaoh that if he didn't let all of the Israelites go, God would get super angry and he would send 10 plagues. Then God did send them. They were frogs, locusts, gnats, lice, boils, darkness, and the death of the firstborn. Then, pharaoh said "You can lead them out how you want." This way known as the exodus. This made everyone (except pharaoh) happier than ever.

## Who is Moses?

Moses is the prophet who set the Israelites free from slavery in Egypt. Now, when it's Passover, people eat the Seder meal in remembrance of Moses. A baby, Moses, he was born and at first, floated away by his mother. He sailed and he sailed until he was found by an Egyptian princess.
