LO: We are learning to write our own adventure stories, including our characters, settings and plots.

It was just one ordinary day for 10 ^{gen. and brave} friends, - or that is what they thought ^{know matter}. They always stayed in twos, Mia and Blue, Dave and Luna, Tom and Grace and Suana and Doana, they are twins. They were all ^{meeting} up at Mia's house to ride ^{her} her 5 ^{horses} horses. Then they were ^{kidnapped} kidnapped, by ^{a stranger} someone and taken to a ^{rocket} ship. Then ^{NASA} suddenly, he ^{pressed} pressed the launch button and they go into space at ^{fast} speed. Luckily, the police come and he gets arrested. ~~But~~ Sadly, they are now in ^{deep} space. They don't ~~know~~ know what to do. They are all alone ~~and~~ only have each other.

Now, they are ~~floating~~ floating into deep space ^{with} ^{no} ~~not~~ know way down. They have left earth's orbit. (Khan one has left earth's orbit since 1972). They have ~~now~~ NO WAY ~~back~~ BACK. Then suddenly, the ship starts to talk, it ~~also~~ asks them "are you a NASA staff member?". They did not answer. ~~Everyone~~ Everyone was terrified ~~but~~ ^{at} ~~the~~ Mia answered, she said "No". Bravely she said "we have been captured by someone". ~~It~~ It replied by saying "Who are you". Mia replied "I am Mia Osborne and I am helping my friends". "do you have a camera". The rocket says "yes you have brown hair and brown eyes".

~~Mia~~ ~~also~~ Mia looks around, she did not realise how nice the rocket looked. It's glacial colored wall as colorful as a rainbow. Bright soft silky wight colored carpeted ~~floor~~, floor. There is a peachy wight ceiling with a brushed silver shandelier with eight candle slots with rainbow candle flames. She could not believe her eyes! She moved down to the ~~bedroom~~ bedroom and layed on the bed, it was the compest thing she had been on.

Then suddenly, the rocket comes crashing down onto a land called Minecrasto in the galaxy: 204689247892. Blue zind's, an alien it looks like the alex character on his minecraze game, then out of know we were Steve shows up and teleports them to there house. They walked in and were trapped. Alex said ^{deeply} "the only way out is to do the parker untop of lava". They did not want to so they staid. They were stounded by diamonds and emeralds.

Min stood up and started to jump and said "let's go". They went on magma blocks, sand, diamonds, slabs, glass, fences, iron bars and end portal blocks. After they finest they shuk ~~back~~ back to the rocket and tried to go, they adneslually made it safely back to earth. They landed at the NASA space stashon. They were given food and told them they had found there missing rocket and went home. All of there parents were so happy there children were home safely. ~~was~~ they ^{still} had more adhenersors to come...
