LO: We are learning to give structure to our writing to ensure it is cohesive.

Case number: 7465
Junior officer: Kailyn
Suspect "storm"

Appearance:

The suspect known as storm has pale white skin, with a black suit and hat. He has black leather boots, adding to his neutral expression and making the colour of his chestnut horse stand out ten percent more. His ^{gaunt} face and slim build make him ^{impossible} to miss.

Dangers:

This unknown being is ^{potentially} ~~potentially~~ very dangerous as he is ^{not} ~~not~~ familiar to any of us ^{villagers} ~~villagers~~. So he could be hiding weapons from any of us. He should not be trusted as he can appear at any point moment, scaring people of the community. We know every horse and ^{none} ~~there~~ of them seem dangerous ^{except} ~~except~~ for the one our suspect rides, meaning he has no home in water ^{slain}.

Last spotted:

Our suspect was last noticed near the remote ~~cottage~~ ^{cottage} ~~2 miles~~ 2 miles from town. He was said to have been going towards the marsh with a young girl on his horse. Then he faded into the distance.

Action:

The safest thing to do is to stay away from storms and under ~~no~~ NO ~~any~~ circumstances do not engage in conversation. Avoid walking around the marshlands late at night and if spotted, report to the police.

✓ Great effort Kaitlyn.
