We are learning to create cohesion

Science: Theory of Evolution - Charles Darwin and Mary Anning.

This ^{is} about ~~of~~ this scientific ^{people} humans ~~that~~ ^{with} which are called Charles Darwin and Mary Anning, they are important and famous in science as they are ^{the} first ^{people} person that created and found ^{it}. They are both ^{from} history. ~~until~~ Charles Darwin made Human Evolution and Mary Anning found fossils, since she was a young girl and this gave the scientific world a new focus and a new theory.

Charles Darwin was born in 1809, ^{he} was an English naturalist. Which was born in Shrewsbury, Shropshire. He is famous for his work on the theory of evolution, it's basically humans to apes. His ~~book~~ however his book on the origin of species (1859) did two things. Firstly, it provided a great deal of evidence that evolution has taken place. Secondly, it proposed a theory theory to explain how evolution works. That theory is natural selection. It means a understanding of biology and Earth.

~~Tuesday~~ Thursday 23rd January 2020

Mary Anning was born on 21st May 1799, she lived in a seaside town of Lyme Regis in Dorset. When she was born something terrible happened. She had a sibling but she was the only one of two to survive to adulthood. ~~the~~ Anning, mostly spent her time with her dad, whilst her mother gone to work. Anning and her dad ~~to~~ have bonding time by collecting fossils and that's how she became a fossil.
