

I am always so happy before the big crowds come and look at me! I wish I could get an egg or a bit of toast I need something other than ~~rotten~~ rotten food. I always say thank you when I get good so Mr Tappan hits me with a ~~whip~~ long belt with holes in (I think it has holes in because I ate it)

L.O. We are learning to select the appropriate grammar and vocabulary.

Circuses

~~Circuses~~ are a huge, travelling entertainment company that perform a range of acts, ^{beautiful} dances and ^{dangerous} stunts in amazing colourful ~~tents~~ tents. Despite their ^{entertaining} popularity of acts, some ~~circuses~~ ^{circuses} use wild animals such as ~~elephants~~ elephants, lions, horses and even tigers. Most groups that like animal rights ^(CRSPLA) right groups ^{believe} these animals should go back to the wild but others say the circus owners need to carry on.

Firstly, ^{adore} the positives are that the animals (like ~~the~~ lions) may ^{love} the keepers and like to play or train with the ~~keepers~~ ^{keepers} as in the wild, they may ^{not be protected} not be safe, but in the circus they are safe. ^{therefore} So the animals should be ^{allowed} allowed. Also ^{the animals} elephants may have great enclosures and may have a ^{vast} great amount of space. ^{That is another} ~~an~~ example of why animals should ^{remain} stay in circuses.

Although circuses may keep animals healthy, the animal (for ~~an~~ example elephants ~~lion~~ tigers) may forget how to hunt and die in the wild as they

used ~~used~~ used to be given good and may die when they are released. Also an elephant ~~may~~ may get hurt and start to attack and members of the public may be ~~to~~ killed.

I strongly believe ~~ever thought~~ that animals should stay at the circus as most people will loose money and will have nowhere to go and the most animals enjoy having to ~~lit~~ live at the circus.
