L.O. we are learning to structure our writing ideas.

The truth behind the monster in the sewers
By C. J. McCarthy.

* For weeks our city has been
plagued with robbery
and crime. There has recently
been discovered that there is a
beast living in the sewers
below us, in the streets. This
monster has been ~~swimming~~
of the scraps that we
all been throwing down.
Today the truth of this
monster will be revealed.

* The least of the sewer workers
was first discovered by our
sewage workers. The two of
them went down to clean
the sewers when they saw
a large ~~eye~~ shadow lurking
in the distance. It was the
first monster we had in
the sewers so it gave them
a fright. Now they
say 'my mum said if I ever
see a monster I need to run
for my life. So I did' said
one sewage worker.

Now we are here with
Lilly, we think to of been
a friend of the monster. Her
we are interviewing her now.
"I'm here stuck in prison
because of Roger. We were
going to do a removal
job so I give him a
instruction and he can't
even follow that. He eats
though though a chiller
it makes such a noise
the the Corp's even come
and arrest us. Me and
my game, Roger must
have run to the sewers
to get away."
