LO. We are learning to evaluate and edit our writing by proposing reasoned changes to vocabulary, grammar and punctuation to enhance effects and clarify meaning.

So I am a young carer and I help my brother ~~who~~ ^{that} has a disability. I keep my brother entertained and quite when she has a very important phone call. If there is an emergency I wake her up if she is asleep. But I don't only look after my brother, my whole family I look after so that could make you a young carer.

This could make you a young carer by doing things on a daily basis for someone else say if someone in your family has a mental problem and every day you would have to see and give them ^{what} ~~what~~ they want. You learn to have additional qualities that other children don't have such as being kind and caring and being calm and patient.
